

Evan Hopper-Moore

(541) 521-5935 | evanhoppermoore@gmail.com
925 NW Buchanan Ave, Corvallis, OR 97331

Experience

Web Developer

Impact Studio - OSU

January 2021 - February 2021

- Redesigned Impact Studio website in under a month
- Created new landing page and informational sub pages
- Provided support after deployment

Palo Alto Software

Web Development Intern

Summer 2018 and 2019

- Worked with marketing and design teams to create landing pages
- Resolved over 60 bugs from the company backlog over two summers
- Helped maintain multiple sites and blogs using PHP, JS, Wordpress, and SCSS

University of Oregon

Full-Stack Web Development Intern

June 2017 - September 2017

- Worked on the FastTraq project, which lets users create bike routes online, and virtually press crosswalk buttons for a seamless ride
- Used AWS, Python, and the Google Maps API to build a dynamic website from the ground up

ShoeBio

Freelance Software Engineer

December 2017 - June 2018

- Prototyped a web-scraping backend from scratch
- Enabled price data collection for over 100 shoe vendors using Python and AWS

Education

Oregon State University

Expected graduation date: March 2021

- Pursuing a bachelor's degree in Applied Computer Science, with an emphasis in Artificial Intelligence
- 3.8 GPA
